

COMMUNITY TEAMMATES

After the success of WIN (Women’s Interactive Network), the NFL is pleased to announce the formation of NFL Community Teammates, a cross-departmental affinity group of employees dedicated to volunteering together in the community. Employees are invited to join as an inaugural ‘teammate.’

In the spirit of Responsibility to Team, one of our values, teammates will partake in service events giving back to our community. Volunteer outings will occur at least four times a year in the local Los Angeles community and will generally take place outside of business hours. Members will be asked to attend at least one volunteer outing per year. There will be opportunities for members to recommend service activities and help to plan outings.
